# Ready to define your dental needs?

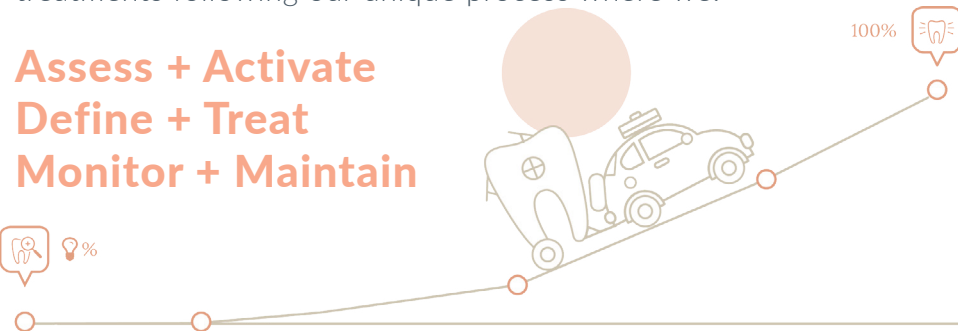

## It's easy working together with Define Dental

Welcome to Define Dental.

We're a privately owned dental practice whose success is based on a genuinely caring team committed to helping you achieve your dental health goals.

Using our unique Define Dental Health Scale, we deliver a full range of preventive, general and cosmetic treatments following our unique process where we:

**Assess + Activate**  
**Define + Treat**  
**Monitor + Maintain**

Regardless of your needs, we take a partnering approach that prioritises you and your health.

### Preventive Dental

We help people with hygiene visits and cleans, kids dental, dental check ups and mouthguards. Just ask us.

### General Dental

We're able to assist with fillings, crowns, bridges, implants, dentures, root canal therapy, wisdom teeth removal, and treatment for gum disease. We work with you to resolve your concerns.

### Cosmetic Dental

Our team of dentists provide a range of cosmetic treatments, including teeth whitening, veneers, restorative dental and straightening options. We'll help you feel great about your smile.

## Be part of our community

Our approach to the community of patients we serve is driven by fundamental values. More than anything, we want to make a difference and ensure everyone who visits us walks away with a smile on their face and in their heart.

## Our values

### Happiness

We genuinely love what we do. We choose happiness that arises from an appreciation of how lucky we are.

### Integrity

True alignment is a function of personal and professional integrity. It means we do the right thing.

### Teamwork

We might be individuals, but together we make up the whole team. This means we have a responsibility to be connected to our team, community of patients and beyond.

### Growth

Nothing stays the same, so we embrace change, using it as an opportunity to evolve, grow and improve, as people, as a business, and as a community.

### Relationships + Communication

The way we interact with each other has an impact so we communicate with care.
